

6th Annual Illinois Teacher Leadership Summit

March 3-4, 2023

In collaboration with supporting organizations, The Illinois Teacher Leadership Network will host the 6th Annual Illinois Teacher Leadership Summit to spotlight and advance teacher leadership and student learning throughout our state.

Will you support a team in 2023?

Teacher Leadership Summits invite teams of educators from school districts, colleges and universities, and partner organizations from across the state to submit proposals outlining a problem of practice that they wish to address through teacher leadership. The Illinois Teacher Leadership Network then selects proposals and invites the selected teams to a summit. The summit provides an expert coach for each team.

Together, the teams and coaches positively impact learning for all students by:

- Networking and building relationships with other educators and leaders in Illinois
- Sharing ideas and best practices and learning from examples of existing teacher leadership efforts
- Identifying common challenges and creating concrete, actionable teacher leadership plans to address them locally
- Developing concrete plans for follow-up support

For example, one school district attended the summit to make a plan to implement Play-Based Kindergarten. With the help of their critical friend, the school was able to utilize their plan immediately.

Over the past 5 years, funding supported 67 teams, impacting approximately 335 teachers and countless students. In 2023, we hope to support 20 additional teams statewide bringing our total impact to approximately **45,000 students** in the state of Illinois!

This goal can only be made possible by the generosity of corporations, organizations and individuals who believe that supporting teacher leaders positively impact student learning across the state.

The mission of the Illinois Teacher Leadership Network is to build a sustainable culture for teacher leadership in Illinois. Our goal is to increase success for all students through teacher leadership in instruction, professional collaboration, policy and advocacy.
